**Delivering Your Success, One Shipment at a Time**

# Who we are?

DLS was established through the great demand for our unique strategy in handling Domestic and International Courier and Road freight, for each and every logistical requirement our customers may have. We understand the uniqueness and urgency required, in the movement of Courier freight from one point to another irrespective of the commodity and we ensure that we provide the critical services and information necessary in order to give our clients a competitive advantage in the management of their supply chains.

Whether you require a domestic or international courier service, we have the most efficient network of service providers.

## Our Mission Statement

DLS Logistics Services is committed to providing fast, affordable, and reliable courier and freight services, managing every logistical requirement with utmost precision.

## What we do?

Our services include exceptional international and domestic door-to-door courier services for everything from documents to larger parcels, at highly competitive prices. We specialize in the following:

- We facilitate swift and secure delivery of documents and larger packages directly to specified locations.
- We specialize in converting smaller, less bulky air freight shipments into more cost-effective courier shipments.
- Our extensive road freight capabilities cater to diverse shipping needs, from small parcels to full-truckload shipments, with options for specialized handling.
- We offer expert consultancy to optimize supply chains, manage risks, and streamline operations, ensuring the most efficient, secure and reliable transportation of goods.

## Why Us?

- DLS offers competitive door-to-door export and import courier rates for everything from documents to larger packages, as well as domestic courier services throughout South Africa.
- We specialize in converting smaller air freight shipments into international courier shipments, allowing you to purchase competitive door-to-door rates rather than exorbitant air freight rates.
- Our personalized service ensures that each client is allocated a dedicated operations controller who will manage your shipment from start to finish, providing daily updates.
- We work with an array of suppliers, and we tailor our quotes based on the urgency, size, and destination of each shipment.
- Our expert team ensures that every shipment is handled with care, meeting strict timelines and logistical challenges effortlessly.

## How does our service benefit you?

Choosing DLS Logistics Services ensures efficient, reliable, and cost-effective management of both domestic and international shipments. We leverage our extensive logistics network and expertise to offer competitive rates, reducing your overall shipping costs while maintaining the highest standards of service. Our dedicated operations controllers personalize your experience, managing each shipment with precision to ensure timely delivery and minimize disruptions. This comprehensive approach not only saves on costs but also enhances your operational efficiency, allowing you to focus on growing your business while we handle the complexities of logistics.
